

**God bless the most honorable Florida Governor,
Charlie Crist ... his first executive order... open and
transparent, and fair government.**

**Looking forward to his official executive order to
have me and my deserving, chosen fellow sufferers,
and concerned citizens to personally testify and prosecute those who
have made our lives a living HELL in Bay County (Panama City),
Florida, under US Code 241, and 242, and FS 895, 876, but not limited
to the above, including a safe escort to and from the State capitol, and
protection for me and my testifying friends for the rest of our lives.**

**If it's done for ex-president, why can't it be done for
us? Is an ex-president worth more than the least in our society?**
