

# Oath Of Arrest And Prosecution

(As demanded by Deuteronomy 19:18-19, and Exodus 20:16)

**FOR ALL 50 STATES POLICE, PUBLIC DEFENDER, PROSECUTOR, ECT.**

I, a public servant officer under Miranda v. Arizona 1966, Brady v. Maryland, but not limited to the above, swear under immediate imprisonment, no bail, no letters, no visitors, no commissary, no special privileges, no protective custody, to do maximum time, day per day, stacked end-on-end, the following felonies... U.S. Code, Title 18, 241-242, which is a ten year prison sentence, \$10,000 fine, plus, racketeering FS 895, public servant oath, FS876, perjury FS 837, bribery or to procure an evil benefit, FS 838, conspiracy FS 876.

The person being arrested has been given a number controlled form for them to write down their side, while their incident witnesses, character witnesses. Alibi witnesses, and other evidence, and information is still fresh in their mind, and force me to secure and preserve any favorable witnesses, evidence, unknown at the time of the controversy, that could clear the accused, and shall be forwarded to any official court or other official procedure under immediate prison for failing to do so, accompanied by their fingerprints, part of a personal story, only they or a family friend could know.

I further swear this person was unprovoked, started the original trouble, and was not even faintly a reasonable personal inalienable rights defense. The accused crime originated in the mind and could have avoided. it was not a constitutionally protected act of peaceful assembly, or attempting to stand up for an inalienable God-given right.

This person was not contesting a questionable, wrongful, practice of hate, such as trespassing, where no fence was violated or crossed, and was open to the general public. This person was not unprovokingly, for no good reason, causing a disturbance. I swear, I did not use any tricks, escalation/confusion intimidation tactics to anger the person, in order to "up the charges". And if I did, the instant it happens, I no longer get official State / Federal / Local government protection. As it is a common tactic for cops to use enragin techniques, such as "assault bait", to "up the charges". I further swear I carefully did an investigation by a checklist of the controversy, and did not let my personal prejudices (if any) enter into the investigation. I gave an investigation checklist to the accused, so they could double-check my performance.
